

ARB and RIBA CPD Requirements Checklist - Embodied Carbon Measurement and Reduction in Design with the SmallCarbon Tool

ARB MANDATORY CPD - ENVIRONMENTAL SUSTAINABILITY

B - Sustainable Design Principles

SB4	Be able to apply the design principles of Life Cycle Assessment and Costing	✓
SB4	Be able to apply the design principles of Whole Life Carbon & Low embodied carbon design	✓

C - Environmental and Building Physics

SC3	Be able to calculate predicted operational and embodied energy use and carbon emissions	✓
------------	---	---

D - Construction Technology

SD1	Understand the embodied carbon and resource implications of different methods of construction and performance of building materials	✓
------------	---	---

RIBA Core Curriculum - Code and Topic

ASP - Architecture for Social Purpose

ASP06	Duty to society and end-users	✓
ASP07	Duty to the wider world	✓

BS - Business, clients and services

BS04	The client offer	✓
-------------	------------------	---

LR - Legal, regulatory and statutory compliance

LR08	Sustainable architecture	✓
-------------	--------------------------	---

SA - Sustainable Architecture

SA05	Energy and carbon	✓
SA11	Knowledge of low carbon skills and energy literacy	✓

DCT - Design, construction and technology

DCT05	Specification and materials	✓
--------------	-----------------------------	---
