

ARB and RIBA CPD Requirements Checklist - Heat Pumps - from design to installation (Workshop)

ARB MANDATORY CPD - ENVIRONMENTAL SUSTAINABILITY

B - Sustainable Design Principles

SB4	Be able to apply the design principles of Fabric First and thermal/energy efficiency	✓
SB4	Be able to apply the design principles of Appropriate renewable technologies	✓

C - Environmental and Building Physics

SC1	Understand the environmental science relating to temperature, humidity, sound and lighting	✓
SC2	Understand the principles of human comfort and indoor air quality in relation to energy use	✓

D - Construction Technology

SD3	Understand the performance of major energy demanding building technologies (ventilation, heating, cooling, hot water and lighting), and the use of onsite renewable energy generation or further offsetting to achieve decarbonisation.	✓
------------	---	---

RIBA Core Curriculum - Code and Topic

LR - Legal, regulatory and statutory compliance

LR08	Sustainable architecture	✓
-------------	--------------------------	---

SA - Sustainable Architecture

SA05	Energy and carbon	✓
SA11	Knowledge of low carbon skills and energy literacy	✓

DCT - Design, construction and technology

DCT04	Structure and services	✓
--------------	------------------------	---
